MESSAGE FROM THE FOUNDER

I started inventing from a very early age, maybe at 7 or 8 years.

Later in life I came to recognize and acknowledge that I was actually a child inventor; and it was my wife, who is a Psychologist and Artist, who helped me in this inner self discovery journey.

I love to create unique products, out of ideas that help to solve real problems and improve people's life. I feel God has gifted me with a variety of talents and it's through the creation of disruptive and novel products, that I can express my gratitude to the Creator, and at the same time serve people.

The **Gadget Maker** is the 'Dream Factory' Startup that enables me to bring to life the most innovative gadgets and products.

Pablo Olivera Brizzio

WHAT WE DO

We invent, design and develop cool technology gadgets and products for a variety of users and industries, such as: Crypto, Metaverse, Edtech, Electrical and Electronics, Makerspace, Toys, Apps and beyond.

Each of the carefully selected ideas is morphed into a exclusive creation.

Our products are unique and they provide a cutting edge experience to our fans.

FACTS

Crypto Wallet Market to be Worth \$48.27 Billion by 2030: *Grand View Research, Inc.*

- There are about **36.5 million American** crypto users and **300 million global** crypto users as of 2021

11.4% of UAE Residents Have Invested in Cryptocurrencies (news.bitcoin.com)

We primarily have a B2B business model based on regional distributors, business partners and strategic EdTech channels.

At the same time, we do engage with the B2C community at various exhibitions and events, to promote and build the product culture.

In the next 12 months we plan to expand to key geographies, following the above model, mainly Middle East, US and Europe.

WHAT ARE SOME OF OUR CUSTOMERS SAYING

KRINZA MOMIN

Jr. Data Scientist at Afiniti
Former DSC Lead at Google Devs

“

Being my own bank requires me to be cautious and disciplined about the safety of my digital assets. I found PCB Vault in that regard, one of the most secured “Crypto Wallet Recovery Seed Storage” tool to get. Unlike any other storage in the market, its high-tech super-sleek design uses soldering technique to grave the encryptions on the pad for physical security. With PCB Vault, I’ll never have to worry about losing my seed phrase ever.

”

BIANCA ANDREEA BUZEA

Associate Solutions Architect
at Amazon Web Services (AWS)

“

With freedom comes responsibility. Managing your own private keys requires extra cautiousness. Also, you need the right tools to do so, as there is no “restore password” functionality. If you lose your seed phrase, there is no way around restoring your wallet, unless Quantum computers will mature enough. PCB Vault is a great tool for helping you store your seed phrase. Additionally, the graving technique using soldering is much fun too!

”

DR. RAFAEL LEMAITRE

Partner at Sia Partners | Board Member of
Global Innovation Management Institute |
Strategy & Innovation Management

“

I found PCB vault as an extraordinary clever solution to keep my recovery wallet secure. From a security perspective there is a clear value in the “sneak peek” protection capabilities offer. From an usability perspective it is easier than what looks to set it up, plus quite entertaining to do so!

”

THANK YOU!
